

HARISH GOVINDARAJ

Full-Stack Developer

Chennai, Tamil Nadu, India | +91 9500404377 | harishgovindaraj.dev@gmail.com | [linkedin.com/in/harish-govindaraj-379629151](https://www.linkedin.com/in/harish-govindaraj-379629151)

PROFESSIONAL SUMMARY

Full-Stack Developer with 3.5 years of experience building scalable enterprise applications, improving performance and maintainability using Angular, React, Node.js, and Oracle SQL. Skilled in RESTful API development, front-end performance optimization, and Linux-based deployments. Experienced in Agile environments delivering production-ready features across B2B portals and fleet management systems.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, Java, Angular, React, Node.js, Bootstrap, ExtJS

Databases: Oracle SQL, PostgreSQL, MongoDB

Tools & Platforms: Git, Linux, Bash, Tortoise SVN, Figma, AWS, Oracle OCI

Practices: RESTful API Development, Responsive Web Design, Agile/Scrum, CI/CD, Front-End Testing & Debugging, Shell Scripting

PROFESSIONAL EXPERIENCE

Software Engineer | Bahwan Cybertek | Apr 2024 – Present | Chennai, TN

- Developed enterprise-grade Angular applications integrated with Java backends and PostgreSQL databases
- Built and integrated RESTful APIs to support scalable microservices-based backend architecture
- Optimized database queries resulting in ~30% improvement in response time and collaborated in Agile/Scrum environment to deliver production-ready features on schedule

Front-End Developer | Finan Consulting LLP | Nov 2021 – Mar 2024 | Chennai, TN

- Developed responsive UI components using JavaScript, improving user experience across devices
- Optimized front-end performance, reducing page load time by ~20% through code splitting and asset optimization
- Collaborated with cross-functional teams to design and implement scalable UI architecture and created UI/UX prototypes using Figma to improve user interaction workflows

NOTABLE PROJECTS

TM and Fleet – Terminal Manager & Fleet Tracking | Dec 2025

- Developed Angular modules for fleet tracking and terminal operations management improving operational efficiency by ~20%
- Integrated Java and PostgreSQL backend services; improved system performance through scalable architecture

NIIMS – Fuel Booking B2B Portal | Apr 2024

- Developed a B2B web application using ExtJS and Oracle SQL for bulk fuel booking management
- Enabled customer interaction management and improved operational efficiency through workflow optimization

Kriya-Hub – Employee Time-Tracking Portal | Dec 2023

- Built a full-stack employee management system using MongoDB, Express, React, and Node.js (MERN)
- Developed RESTful APIs for timesheet and project tracking, streamlining operations across teams

EDUCATION

B.Tech, Information Technology | Kalasalingam Academy of Research and Education | 2016 – 2020

Virudhunagar, Tamil Nadu

CERTIFICATIONS

- Front-End Development – Udemy
- IT Service Management – ISO/IEC 20000-1
- Oracle Cloud Essentials
